

How to Cut Costs and Boost Profits with

TEAM COLLABORATION

The Business Transformation You Can't Afford to Ignore

For every 10 new companies, nearly

6 CLOSE THEIR DOORS

52% of the companies on the Fortune 500 list in 2000 are no longer there

How to Stay Ahead of the Curve

Companies with better team collaboration achieve:

Better financial results

Higher employee performance

Increased employee loyalty

Higher levels of innovation

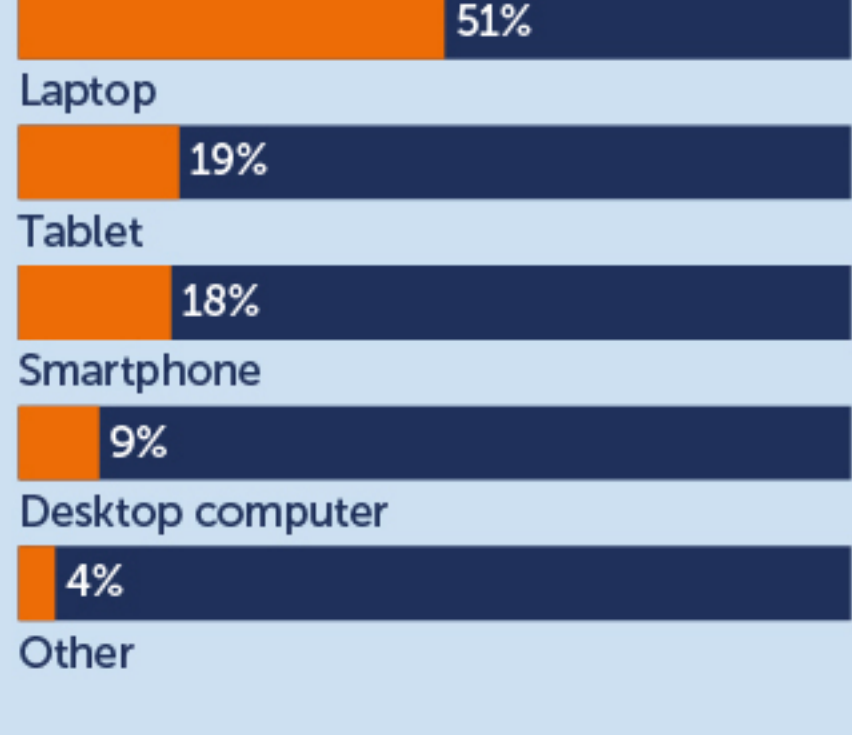

80% of executives say collaboration is crucial to growth

The Collaboration Challenge

Mobile is becoming the new normal

When asked which tool ranks as most important for their daily work, workers say:

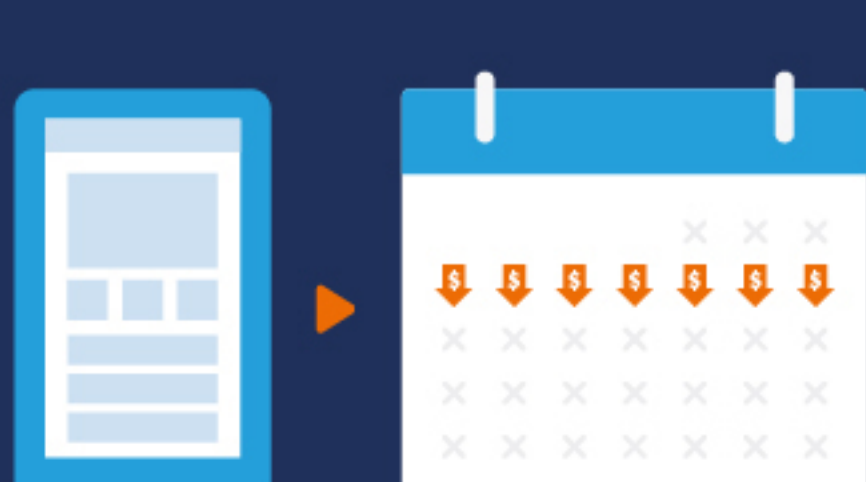

But companies aren't adapting like they should

83% of companies don't have a strategy for mobile collaboration

38% of workers say that access to apps and content outside the office doesn't meet their needs

The average cost of a bad or non-existent mobile strategy is

\$186,000 per week

Some companies face losses in the ballpark of

\$36 million per year!

Average annual loss per worker type:

\$12,493

Knowledge worker

\$9,283

Information worker

\$2,993

Service worker

How Team Collaboration Tools Can Help

Keep workers connected anywhere, any time, on any device

70% of mobile professionals will do business on mobile devices by 2018

Improve employee satisfaction and reduce turnover

36% of employees stated they would choose flexible working options over a pay raise

37% even said they would take a pay cut in order to work from home

Save money by reducing unnecessary travel expenses

The average cost of a business trip:

\$949 Domestic

\$2,600 International

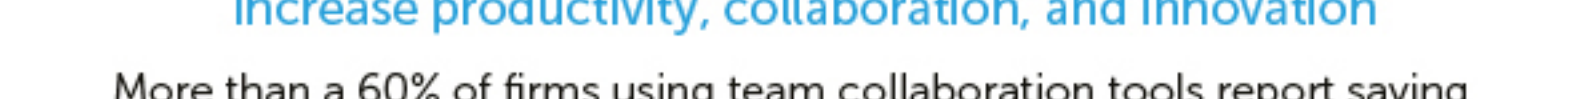

Decrease inbox clutter

Real-time communications can reduce email by an average of 40%

Increase productivity, collaboration, and innovation

More than a 60% of firms using team collaboration tools report saving three hours a week per mobile worker

— imagine how much more you could accomplish if your employees had 12 extra hours of productivity per month!
